

Storing your BAGPAX®

→ To store your BAGPAX® properly, it is recommendable to fold it up after cleaning and drying. Keep your BAGPAX® with the accessory vacuum cups in the carrying case.

i The fastening cords can remain attached to the BAGPAX®.

DANGER Using Tools

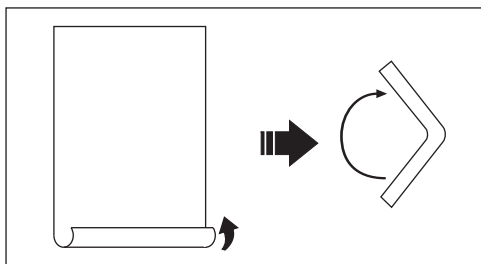

Tools may damage your car as well as your BAGPAX®.

- Remove the vacuum cups manually from the windows of your car.
- Do not use tools when installing or uninstalling the BAGPAX® in your car.

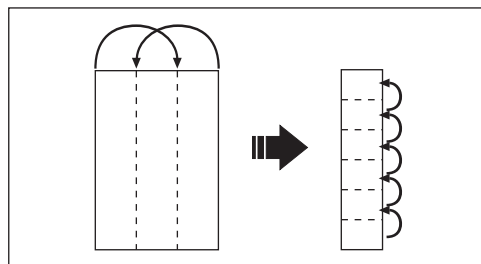

When using your BAGPAX® often...

1. Place the top element as well as the bottom element onto each other.
2. Roll up your BAGPAX® beginning at the hatch.
3. Fold up your BAGPAX® to half its size and put it into the carrying case.

When storing your BAGPAX®...

1. Place the top element as well as the bottom element onto each other.
2. Fold up your BAGPAX® to a third of its breadth. Then fold it up lengthwise five times.
3. Put your BAGPAX® in the carrying case and fold up the carrying case to half its size.

User's Manual

Dear customer,
congratulations to your purchase of a BAGPAX® Station Wagon.

The first time you use your BAGPAX®, we recommend that you read this manual completely to ensure your safety and to ensure that you get the most out of your BAGPAX®. Also, we would like to recommend keeping this manual in the carrying case that comes with your BAGPAX®.

Enjoy your BAGPAX®!

Product Features

BAGPAX® protects your trunk from dirt and it screens the contents in your trunk from the view of passers-by. The BAGPAX® Station Wagon is particularly adequate for all station wagons. The flexible fastening cords that hold the BAGPAX® in place allow BAGPAX® to adapt to any trunk. BAGPAX® can be used with the back seats flipped over or upright.

Safety Instructions

DANGER Danger of Suffocation

People or animals may suffocate in the BAGPAX®.

- ➔ Never leave children unattended around your BAGPAX®.
- ➔ Promptly put away the carrying case for your BAGPAX® after use.

DANGER Inflammable and Hot Materials

Hot materials may damage your BAGPAX®. Inflammable materials may be ignited by direct exposure to sunlight.

- ➔ Do not transport easily inflammable materials.
- ➔ Do not transport hot or glowing materials.

WARNING Obstructed view through the rear window

The view through the rear window may be obstructed.

- ➔ Use the BAGPAX® in cars that are equipped with two exterior mirrors.

Installing your BAGPAX®

1. Unpacking your BAGPAX®

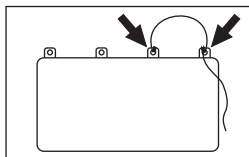

- ➔ Open the carrying case and take out the BAGPAX®, the fastening cords and the vacuum cups.

i Make sure that the carrying case is out of reach of children when stored.

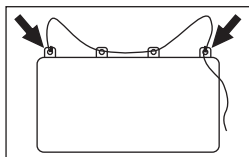

2. Mounting the Fastening Cords

- ➔ Pull the fastening cords through the loops and tie them to the respective loops of your BAGPAX®.

i It is not necessary to shorten the fastening cords.

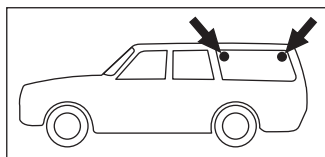

If the backseats are upright, the two rear loops should be used.

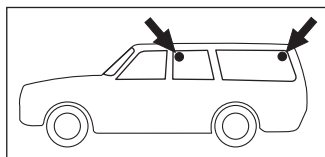

If the backseats are flipped over, the outer loops to the right and the left should be used.

3. Mounting the Vacuum Cups

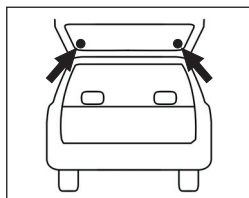

- ➔ Clean the surface of your car windows and press the vacuum cups onto the windows.

If the backseats are in an upright position, place the vacuum cups as indicated in the illustration above.

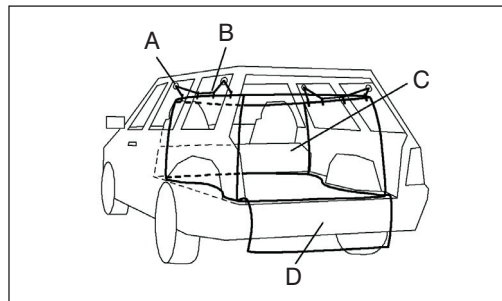

If the backseats are flipped over, place the vacuum cups as indicated in the illustration above.

i With hatchback vehicles we recommend placing the vacuum cups on the inside of the window of the rear lid.

4. Mounting the BAGPAX® in your trunk

A vacuum cup; **B** fastening cord; **C** hatch; **D** protective rear end.

If it turns out that the BAGPAX® cannot be installed in your car, please contact the manufacturer.

1. Fold out your BAGPAX® in the loading area of the trunk.
 2. Attach the fastening cords to the loops of the vacuum cups.
 3. Open the zipper and place the protective rear end over the bumper.
- i** The fastening cord must be tightened reasonably.

Using your BAGPAX®

Loading Cargo

- ➔ Load all cargo after installing the BAGPAX® in your car.

DANGER Unsecured Cargo

Unsecured Cargo in your BAGPAX® may be hazardous.

- ➔ Secure cargo to prevent it from shifting on the slippery surface of the BAGPAX®. It is also recommendable to secure cargo that has pointed or sharp edges.
- ➔ Place heavy cargo on the bottom of your BAGPAX® and make sure that heavy cargo is in a position that is no higher than 40 cm.

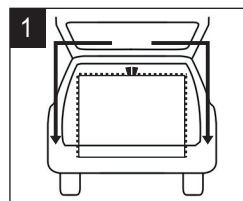

WARNING Overtaxing your BAGPAX®

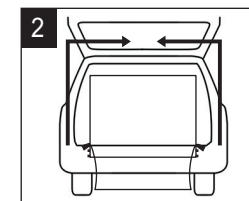

Your BAGPAX® may be damaged if it is carried or moved while cargo is inside.

- ➔ Load all cargo after installing the BAGPAX® in your car.

Closing your BAGPAX®

- ➔ Open the zipper up to the rim of the trunk of your car.

- ➔ Close the zippers after loading cargo into your BAGPAX®.

Cleaning your BAGPAX®

- ➔ Clean your BAGPAX® after use. You may use mild detergents like dishwashing liquid and a piece of cloth to clean your BAGPAX®.
- i** Do not use aggressive detergents.
