- ▶ **etc.**

**Protection for the interior of your car -  
simple, flexible, efficient.**

# For every car there is an appropriate BAGPAX®!

**Quick  
Install-  
ation**

 **BAGPAX®**  
Station Wagon

 **BAGPAX®**  
Compact Class

 **BAGPAX®**  
Sedan

BAGPAX® makes use of the entire space in the rear of your car allowing you to transport all kinds of cargo. A trailer is no longer necessary.

BAGPAX® can be installed quickly and easily and does not require any changes to your car. The BAGPAX® safely latches on four easily installed vacuum cups.

When opened, the BAGPAX® protects the rear as well as the rim of the trunk of your car. The delicate ceiling of your car is also well protected.

Safely enclosed, no more dirt, no crawling insects or moisture in the car. Save yourself from scratches and the necessity of cleaning up after transporting cargo.

**Enjoy the safe and carefree way of transporting cargo!**  
**Only the original BAGPAX® offers such comfort and convenience.**
